

# Aqua Radit S

## Reusable photocatalytic deodorization filter with washing and sun drying

Deodorization

### Efficiency

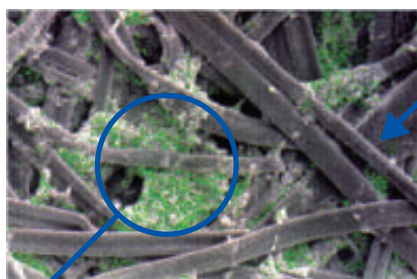

### USE

- Air purifier
- Air conditioner
- Refrigerator etc.

## Features

### Feature1 Hybrid photocatalyst

Complex of Photocatalyst/adsorption deodorize under the dark. Photocatalyst also work under UV light.

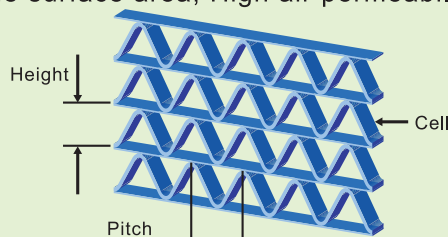

Filter image with X-ray

Hybrid photocatalyst (colored green)

### Feature2 Corrugated shape

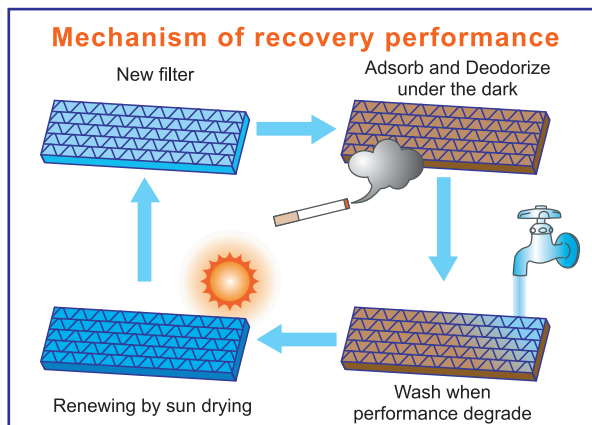

Large surface area, High air permeability.

Cell	P8	P7	P6	P5	P4	P3	P2
Pitch (mm)	9.0	7.2	6.4	5.2	4.2	3.4	2.6
Height (mm)	5.2	4.5	3.5	3.0	2.5	2.1	1.5

### Feature3 Reusable and Eco-friendly photocatalytic deodorization filter, which is easy to care

The adsorption function is renewed by washing and sun drying (photocatalyst working) repeatedly. It is possible to wash with normal household detergent and effectively remove tar of cigarette.

### Recovery performance (according to JEM1467)
